# Trailblazing, in the lead, and innovative.

Carver, Charisma Classic, Cruiser, and Liner are the best evidence for how we not only adopt but also implement the desires and suggestions of our customers. In fact, many developments come about through dialogue with you. And now we can offer you the results of this: four motorhome models with character for motorhome travellers with character.

**Concorde. Passion from tradition.** Constant innovation, craftsmanship, and the relentless pursuit of perfection have made Concorde the market leader in the premium segment of the motorhome industry. Since 1981 we've been designing, developing, and building products of the highest quality. With a passion that makes it possible to manufacture absolutely top products. With us, you have only one choice: you'll always receive nothing but the best.

---

Concorde

Carver

Concorde

CONCORDE

---

# Concorde Carver

**Power meets comfort.** The Carver fulfils the needs of motorhome travellers accustomed to comfort and functionality. It uses the strong Iveco Turbo Daily chassis, making it particularly robust. Continuous double flooring, the Alde water heater, and the unique Concorde Solidtherm wall construction make the Carver the standard-bearer for comfortable travelling – thanks not least to a generous amount of loading and storage space, as well as top marks for winter capability, long operational life, and functionality.

---

# Carver

---

---

## Upscale? That's good!

**Living.** That means being in harmony with yourself and your surroundings. The spacious room layout, the well-conceived floor plans, and the ergonomically optimised dimensions of the seating are designed to make your journey a comfortable, relaxing experience. A selection of premium materials creates an environment that is at once harmonious and of high quality – from cushions to curtain fabrics, from flooring to wall coverings, and from furniture decor to work surfaces. Precision craftsmanship and the highest quality are of course also reflected in the custom dashboard, where the optics of the living room are carried forward seamlessly.

---

# Carver

---

---

## Kitchen? Superb!

**Cooking.** Carver's L-shaped kitchen is a true masterpiece. And proof that form and function are not mutually exclusive – for instance, the Corisan countertop with seamlessly built-in sink. Exclusive design, perfect furnishings, and ideal ergonomics make cooking in the Carver a pure joy.

---

# Carver

---

---

## Abundance? It's necessary.

**Sleeping and revitalising.** There can never be too much comfort. For instance, the open space in a motorhome: you'll sleep extremely comfortably in the Carver's enormous beds. And in the generously dimensioned Concorde bathroom with separate shower, start the day fresh and upbeat. Total motorhome pleasure.

---

# Carver

---

---

# Technology? Impressive!

**Technology.** Concorde motorhomes are designed and built by people who are themselves enthusiastic motorhome travellers. You'll sense this particularly if you take a closer look. For instance, the continuous flooring from the driver's cabin to the bedroom: The Concorde One-Level Concept does more than just improve the driver's position and thus the traffic overview as well. It also ensures that the driver and passenger seats can be optimally integrated into the living room. These details show the passion with which we build motorhomes.

---

# Carver

---

---

## Form? Perfection.

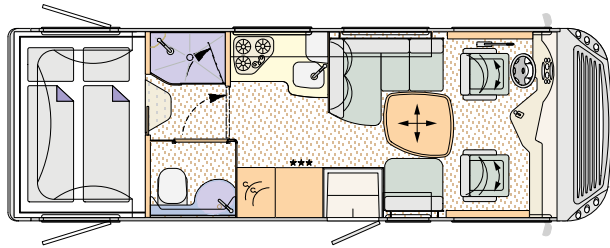

**Floor plans.** The floor plans for the Carver models have been thought through to the smallest detail. They combine a generous feeling of spaciousness with functionality perfected in every detail. For comfortable travelling in perfected form.

CONCORDE

Charisma

Concorde

---

# Concorde Charisma Classic

**Benchmark in its class.** Following introduction of the Charisma, all other integrated motorhomes came to be measured against its performance values. In fact, the features that were embodied in the Charisma more than 15 years ago continue to this day to define style: superior technology, innovative design, and perfection in craftsmanship. That's why it's already a classic. And that's why we've named it the Charisma Classic.

---

# Charisma Classic

---

---

# Space? Plenty!

**Living.** The living room, measuring 2.38 metres in width, makes an imposing impression. But the room in the Charisma Classic feels even larger and friendlier, due in part to the large windows and numerous lamps and spots. But it's also due to the special materials used here. Cushions and curtains are harmonised, as are the cherry-coloured furniture and flooring materials. And thanks to the Concorde One-Level Concept, the driver seats can be optimally integrated into the living room, perfecting the feeling of roominess.

---

# Charisma Classic

---

---

## Kitchen aid? Practical.

**Cooking.** In the kitchen area as well, the Charisma Classic sets standards. The attractive L-shaped kitchen is ergonomic and practical. The central element is the Corisan countertop, into which are set the sink and the three-flame cooker – making cooking as simple as at home. Underneath are extra-large, self-closing drawers with space for stowing all kitchen utensils.

---

# Charisma Classic

---

---

# Peace and quiet? Oasis!

**Sleeping.** All beds in the rear of the Charisma Classic combine a specially designed foam mattress with a three-dimensional spring support. This innovative system allows you to have a restful, relaxing sleep. Beds can be arranged flexibly in the Charisma Classic. Whether a double bed in the middle, a bed mounted laterally in the rear, or built-in twin beds parallel to the direction of travel: You make the decision for sleeping comfort at the highest level.

---

# Charisma Classic

---

# Bathroom? Landscape.

**Revitalising.** As with its One-Level Concept, the Concorde premium bath design has revolutionised the motorhome industry. This is because the bathroom extends for the entire width of the motorhome: Shower and toilet are on one side, the washbasins on the other, giving you an unprecedented feeling of space while taking your morning shower.

---

## Charisma Classic

---

# Evolution? Revolution!

**Concorde One-Level Concept.** When Concorde introduced the Charisma II, it was, above all, the flooring on one continuous level that caused excitement. In contrast to prior models, the existing chassis was not simply taken as is but instead modified to meet the needs of motorhome travellers. The front section, pedals, and mounts were moved forward, upward, and toward the outside. The result: An improved driver position with a remarkable overview and broad feeling of spaciousness thanks to the driver seats integrated into the living room.

Nearly all systems are hidden in the double floor below. Air conditioning system, water heater, fresh-water supply are optimally accessible and easy to maintain via numerous service flaps both on the interior and the exterior. Of course, this was done in conformity with legal requirements.

---

# Charisma Classic

---

## Well conceived? By all means.

In order to enable you to go on holiday without foregoing a thing, we've outfitted the Charisma Classic with particularly large loading reserves and storage spaces. The loadable double floor allows you to stow even the bulkiest items. And so that you can concentrate on enjoying your free time, you control all on-board electronics and systems via the easy-to-use control panel designed by Concorde.

---

# Charisma Classic

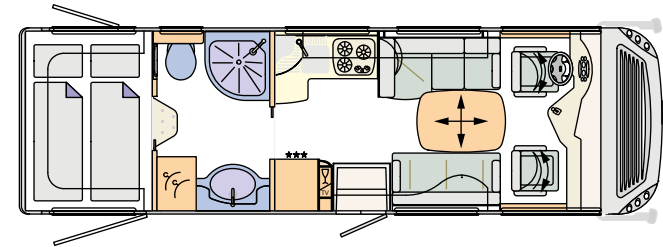

---

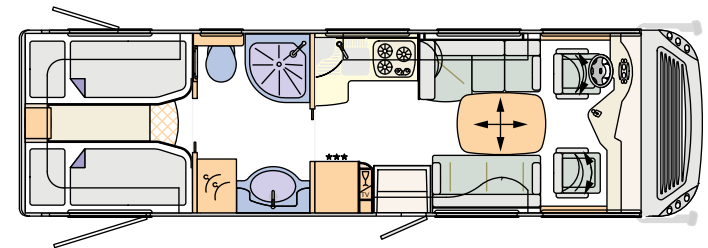

---

# Room layout? Individualised.

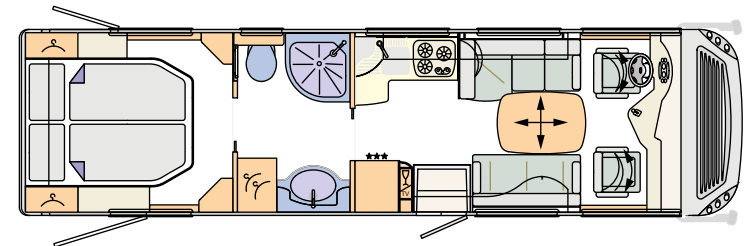

**Floor plans.** With Concorde, you can choose from among a variety of floor plans. Select the Charisma Classic that best suits you from among the new models with three bedding and seating varieties. And start your journey with an unimagined feeling of spaciousness.

CONCORDE

---

# Concorde Cruiser

**A wonder of agility and outfitting.** In designing this new Concorde, we took into account your needs as well as the know-how of our engineers and the passion of our entire team. The functional Cruiser combines the luxury-class Concorde cabin with the agile chassis of the Iveco Eurocargo. It's the perfect luxury alcove for the motorhome traveller who's looking for more than a mere transporter.

---

# Cruiser

---

---

# Use of materials? Superb!

**Living and cooking.** The living room in the Cruiser seems custom-made. Everything here is perfectly harmonised. Cushions, decor fabrics, and the premium cherry veneering go exceedingly well together. An ample seating arrangement forms the comfortable centrepiece of this motorhome.

The large L-shaped kitchen captivates through the functionality and furnishings on which Concorde prides itself. If you enjoy cooking, you'll love the kitchen in the Cruiser with three-flame cooker, stone countertop, including closable built-in sink, single-lever tap mixer with extendable sprayer, and, of course, optimally positioned LED spots and lights. And best of all: Everything is so efficiently arranged that you can reach and use it with ease.

---

# Cruiser

---

---

## Relaxation? Divine.

**Sleeping and revitalising.** If there's one thing you want on holiday, it's leaving your daily routine behind. You'll experience an especially restful and relaxing sleep in the Cruiser. Whether double bed in the alcove, double bed in the rear, or twin beds in the rear: the Concorde comfort mattress system, which is also found in the large Cruiser C1 models, ensures optimal, healthy sleeping comfort. Generous bed sizes and the extraordinary alcove height give you plenty of room for dreaming.

And come morning? Get a perfect start to the new day in the Concorde premium bathroom with separate shower. Also, an integrated closet and the variable space in front of the rear bed transform the bathroom into a spacious dressing room. Typically Concorde.

---

# Cruiser

---

---

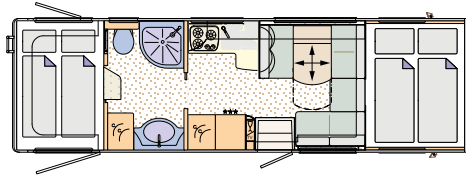

## Selection? Plenty.

**Floor plans.** Select from ten floor plans with ample living zones and three different rear bed configurations. Simply decide on the combination that suits your wishes.

# Concorde Liner

**Perfect all-rounder.** Concorde builds motorhomes out of passion. We've put all our enthusiasm into the Liner, which we manufacture on the chassis of the Iveco Eurocargo. The Liner gives voice to everything that our customers have requested: Living comfort and loading reserves of a motorhome in the Liner class, operable with a Class 3 driving license. In addition, the one-of-a-kind feeling of spaciousness with a cabin width of 2.5 metres. Order received – and completed!

---

# Liner

---

---

## Interplay? Perfect.

**Living and cooking.** When you enter the living room of the Liner, you'll find yourself in a particularly expansive motorhome world: With a cabin width of 2.5 metres, your individual furnishing wishes know practically no bounds.

The kitchen combines function and design perfectly. Stone, chrome, and wood form an attractive interplay of materials. In the spacious L-shaped kitchen, you'll really cook in style: Corisan countertop with seamlessly built-in sink, single-lever tap mixer with extendable sprayer, three-flame cooker, and large, self-closing drawers that can hold all kitchen utensils are standard features.

---

# Liner

---

## Wellness? Oasis!

**Sleeping and revitalising.** The sleeping zone offers flexibility and choice of materials, just like the other Liner models on a bus chassis. Choose from among three especially comfortable bed configurations for your restful sleep.

The Concorde premium bath extends across the entire width of the Liner's cabin and gives you a feeling of spaciousness like at home. Particularly when you're in the roomy shower, you'll nearly forget that you're in a motorhome.

---

Liner

---

---

## Independent? Definitely.

**Concorde technology.** The Liner makes your journey a special one – and makes you especially independent. For instance, you'll be independent of environmental and parking conditions thanks to the Alde water and flooring heater, a 320-litre fresh-water and waste-water tank, and loading reserves of in some case more than 1,600 kg. In addition, there are the well-known Concorde wellness components. These include the unstepped and completely insulated double floor, the Solidtherm wall construction, a modified driver's cabin with seating moved upward, forward, and to the side for better driver position, and our custom bus cockpit.

---

# Liner

---

---

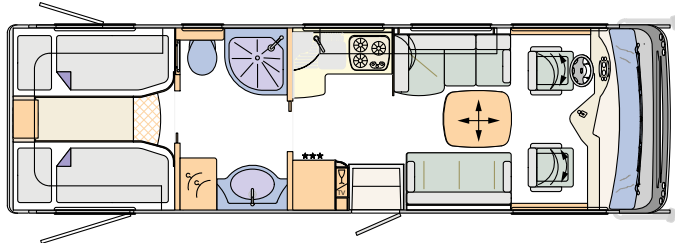

## Layout? Adjustable.

**Floor plans.** Choose from among four floor plans with three seating configurations, as well as two different bed configurations. That's flexibility as you like it for your individualised travel enjoyment.

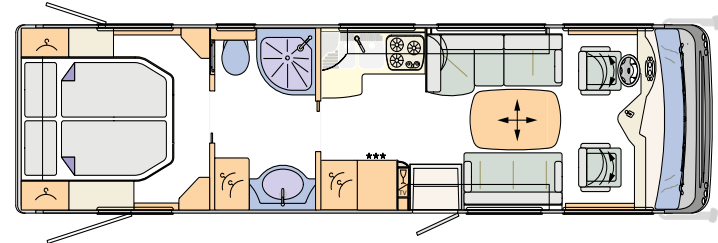

---

# Interior design? Inspiring.

**Fabric combinations.** Select from various combinations of leather, textile, and microfiber. All materials were manufactured by select workshops in accordance with Concorde's strict quality requirements. Thanks to the large selection, you're able to have interior furnishings reflect your personal style. And regardless of the choice you make: All upholstery matches exceptionally well with the furniture decor in your Concorde motorhome.

If you have any questions, please don't hesitate to contact your Concorde dealer.

---

---

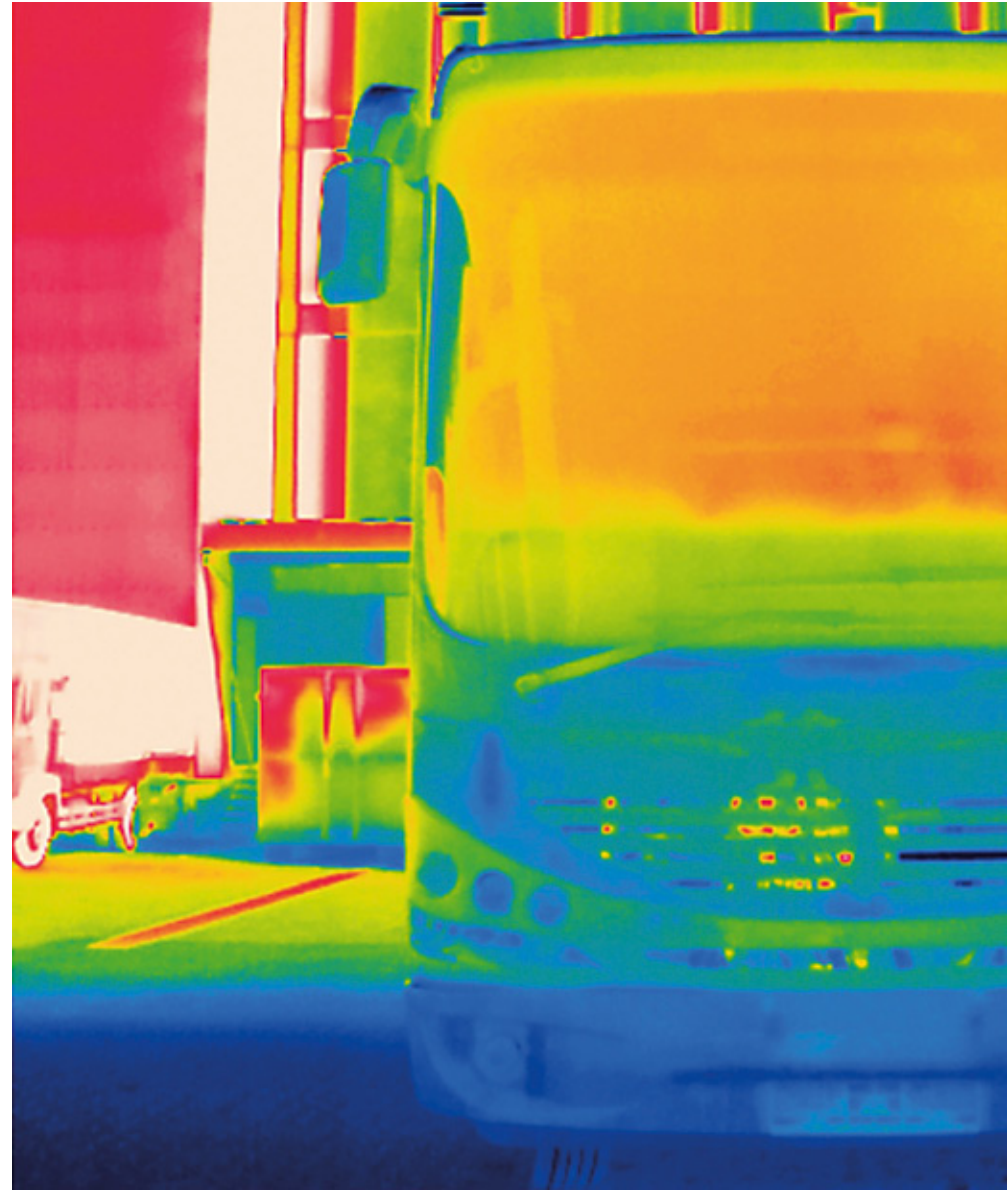

# Service? Leading the way!

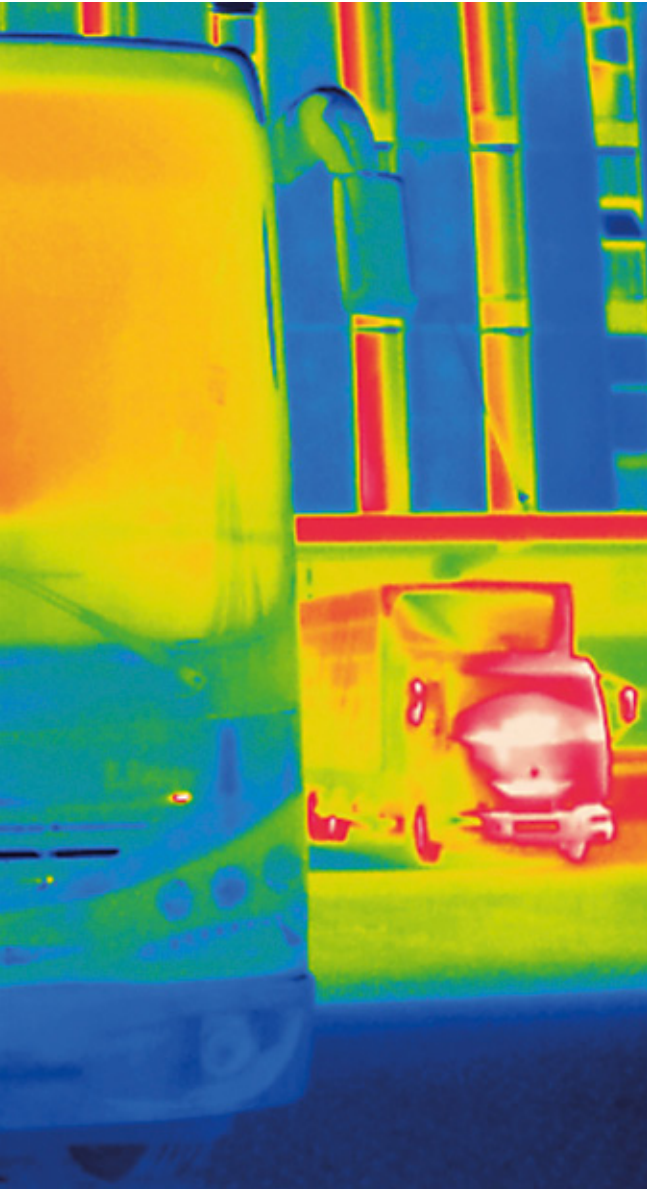

The results are in from the 2010 RMI customer survey: You've chosen Concorde as offering the best service in the premium segment. For us, this means both challenge and obligation!

---

# Excellent

---

---

## Innovative? Always something new!

Concorde motorhomes win admiration not just through their attractive design and exclusive choice of materials but also, and in particular, because of their ease of servicing and maintenance.

Travel pleasure in a modern, electronic way: The latest accessory technology also finds room in the Concorde – from MP3 player to DVD navigation and satellite system to high-quality flat-screen TV. Tune in – and then go ahead and tune out. There are virtually no limits to your fantasy.

---

# New thinking

---

---

## Our drive for your passion.

**The essence of mobile travel.** Products can only be as good as the people who make them. We wouldn't have been able to design and build ever more innovative premium motorhomes over the past 30 years without excellent employees in all business units. All of them work together to create unbelievably beautiful vehicles that meet your demands for comfortable motorhomes of the highest quality. Always in the pursuit of perfection, with never-waning gratification, enthusiasm, and inspiration. This is because they share a passion for motorhomes. And this is what we share with you.

---

# Passion

---

All information and drawings apply to Concorde motorhomes built beginning in August 2011. Model programme, technical data, and features may vary from country to country. Design implementation is based on German roadway and vehicle-registration regulations (Straßenverkehrsordnung, StVO; Straßenverkehrs-Zulassungs-Ordnung, StVZO). We reserve the right to make changes, including without prior notification. Your Concorde dealer will be glad to provide you with current information. Please note that some vehicles are depicted with optional features that may deviate from standard packages.
