

A close-up, low-angle shot of a car's front end, focusing on the grille and headlights. The car is dark-colored, possibly black or dark blue. The grille features horizontal slats. On the left side, there are three circular lights: a large white one, a smaller white one, and a yellow one. Below the grille, there is a horizontal strip of five small, round fog lights. The overall lighting is dramatic, with strong highlights and deep shadows.

ABSOLUTE FREEDOM TO GUARANTEE
YOU ENJOY YOUR HOLIDAY TO THE FULL.

The ability to travel when and wherever you want to, 365 days a year – we think of this as the freedom to simply enjoy your holiday. Our impressive, unequalled Grand Explorer winter package makes this a possibility: bespoke heating and ventilation systems, with Alde hot water systems and heat exchangers as standard, sophisticated insulation systems and lots of additional storage space for your winter sports equipment. All that's required for you to simply experience the luxury of winter fun is a little spontaneity and curiosity.

USING ADVANCED LEADING TECHNOLOGY
FOR LASTING DURABILITY, IT HAS:

A moisture resistant body and high-tech lightweight construction to ensure it is weatherproof. Invest in the future with a durable motor home of lasting quality from the Sassenberg think tank.

- A standard GRP roof and underside paneling for adequate protection from hailstones and rocks
- Excellent insulation properties and optimal moisture control through the use of high-performance water-resistant XPS foam insulation
- Highly stable PU cross beams to ensure a weight-optimized construction with excellent stability and torsional stiffness

MAXIMUM PROTECTION FOR YOU AND YOUR VEHICLE

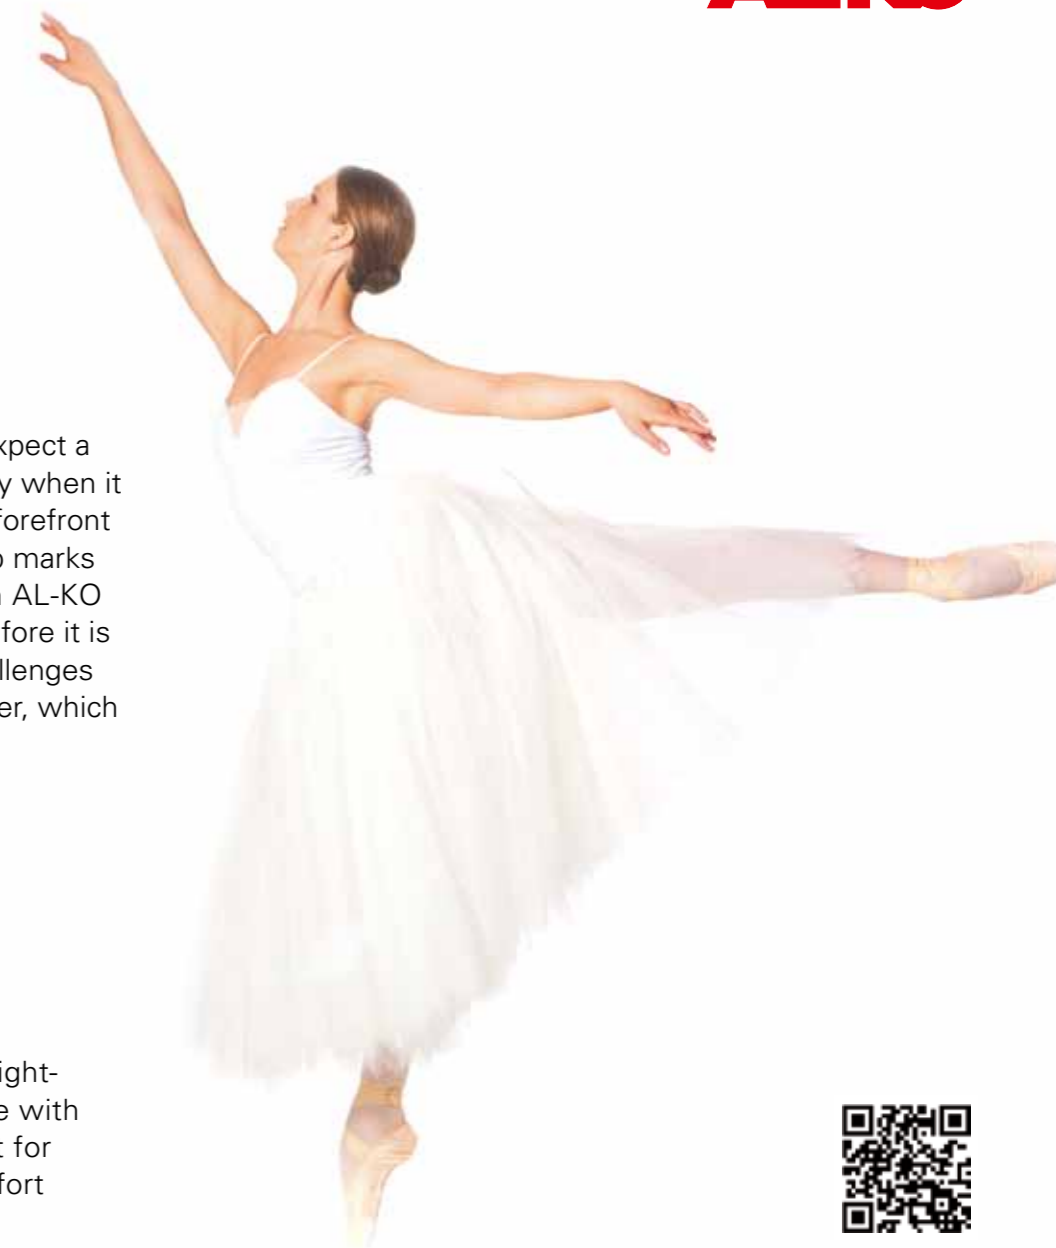

AL-KO

A LIFETIME OF RELIABILITY
WITH LMC AND AL-KO.

Innovative technical solutions and maximum quality – LMC customers expect a lot from our vehicles. We therefore rely on experts' know-how, especially when it comes to comfort and safety. Across Europe, the AL-KO name is at the forefront of its field. With this leading partner by our side, our vehicles achieve top marks in terms of innovation and functionality. And not without reason: each AL-KO component is specially designed, manufactured and rigorously tested before it is used in our vehicles. LMC and AL-KO have collectively accepted the challenges of the demanding market and designed a motor home, the Grand Explorer, which ensures safe, reliable and comfortable future travel.

AL-KO AMC LOW-FRAME CHASSIS

The unrivaled performance of the AL-KO AMC CHASSIS rests on the light-weight hot-dip galvanized low-frame and the wide gauge undercarriage with independent suspension developed by AL-KO. This innovative concept for improved safety, better driving dynamics and the highest level of comfort is found in all Explorer models.

A SMART, UNIQUE VEHICLE DESIGNED WITH GREAT ATTENTION TO DETAIL

Enjoy exclusivity and a pure passion for comfort. Innovative ideas, functional technology and state-of-the-art materials – the Grand Explorer transforms its world into your world. Complete elegance and beauty will guarantee you never want to leave.
