The **Arto**

**NIESMANN
+ BISCHOFF**

The logo for Niesmann + Bischoff features a thick yellow horizontal bar positioned below the company name, which is set against a light grey background.

Why Arto leaves competitors in its price category standing.

There is no doubt about it – the Arto is different to the other mobile homes in its category as its unbeatable value for money is coupled with so many more advantages. So, be fair to yourself and don't settle for any less than this!

Be on the safe side:

Exceptionally stable roof-side panel joins eliminate cold bridges.

To end it all – good night!

In addition to a generously dimensioned lifting double bed, garage models are also equipped with a rear single or double bed.

Long-term relationship:

The 30 mm aluminium-sandwich construction with rot-resistant Styrofoam ensures high durability.

Storeroom

The practical rear storage area offers space for even the more bulky holiday items.

Warmly packed:

The functional floor which protects the supply lines and equipment from moisture, dirt and cold helps make the Arto fit for the winter – and also helps to keep your feet warm during the colder months!

Great outside, great inside:

A really impressive interior – a range of designs, combining high quality materials with meticulous craftsmanship.

Always maintain an overview:

Driver cab with panoramic visibility – without sight restricting B-frame.

Roll down privacy and protection:

Panoramic laminated windscreen with aluminium thermal protection – insulates as well as providing privacy and protection from heat and cold

Hot and cold:

High quality thermo-double glazed sliding window in the driver cab – equally effective against the biting cold and the scorching heat, as well as preventing unwanted »condensation« on the glass.

Light-footed:

Effective engine compartment noise insulation thanks to innovative dashboard construction.

Not easily thrown off track

The construction design features a very low centre of gravity for greater stability and driving safety. Also includes power steering, ABS and ASR (ASR not available with automatic gearbox).

Pure quality of life – at an attractive price

Luxury for a world of a difference??

**Come closer and make
yourself at home!
Intelligent layouts and
various upholstery options
as well as net curtains and
curtain variations cater for
all individual requirements.
And whatever you select you
are assured of having the
pleasure of an interior con-
cept which offers maximum
practicality and elaborate
details lovingly and harmo-
niously combined with a
cosy and aesthetically
pleasing atmosphere.**

Pictures partly with special equipment

Such as the Arto 59S:

- ▶ With sofa and dinette it offers plenty of space — guests are welcome!
- ▶ Two sofas positioned opposite each other create a cosy living area atmosphere in the Arto 59SL
- ▶ Attractive sideboard with shelves including chrome railing for accommodating bottles and other utensils.
- ▶ Above this there is a TV compartment with concertina sliding door

Similar to the Arto 59B:

- ▶ Additionally two shelves with chrome railing behind bar stool and side newspaper holder.

The ARTO:

Your assurance of a really »good journey«!

Set out on fascinating journeys to discover new worlds – whilst the Arto 59G/69G leaves you free to fully concentrate on the wonderful new experiences and unforgettable travel sensations.

Because you will always feel as comfortable in these models as if you were at home.

The Arto 59G is an ideal mobile home for 2-3 people with seating for 4 people. In addition to the double bed there is also a single bed with storage below, located at the rear. The table can be pulled out in a single operation and can comfortably accommodate »dinner for four«. In addition to the lifting double bed, the Arto 69G features a rear double bed and a large storage area.

All Arto models also have the following standard equipment:

- ▶ »Taranto« fabric.
- ▶ Net curtains and curtains on all windows (in kitchenette, curtains only)
- ▶ Wall and ceiling lining in sand-tone vinyl covering
- ▶ Easy-care plastic flooring
- ▶ High quality built-in furniture with rounded fronts
- ▶ Solid frame furniture flaps with metal hinges and snap-shut closure
- ▶ Ceiling-mounted halogen spotlights
- ▶ Spotlights under the wall-mounted cupboards
- ▶ Table with easy-care laminated synthetic surface, crumb rim and solid wood frame
- ▶ Chrome handles.
- ▶ Fabric wall pockets behind driver's seat
- ▶ Comfortable and attractive foam upholstered seating.
- ▶ Height adjustable deluxe driver seat and front passenger seat with integrated headrests and height adjustable arm rests in the same fabric as in the living area.
- ▶ In addition to driver and front passenger seats, forward-facing dinette seats fitted with 3-point safety belts seats (additionally with waist belt).
- ▶ Two headrests on the dinette in forward-facing direction
- ▶ 2 x 230 V sockets

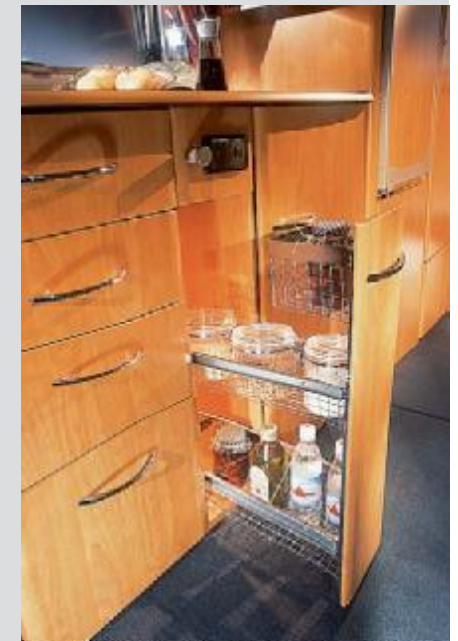

Enjoyment as an energy source Functionality as a principle

**Small space - great effect!
The real key to the design
lies in the details. Nothing
excessive, yet with few
compromises - a balance
of real »Savoir-vivre«.
Be kind to yourself!**

The Arto kitchenette features the following as standard:

- ▶ Recessed three-flame stainless steel stove with splash protection and glass cover
- ▶ Recessed stainless steel double sink with two cover boards
- ▶ Single-lever chrome mixer tap
- ▶ 97 l absorber refrigerator with interior lighting and 10.5 litre freezer compartment (for Arto 69G this is set higher next to kitchen with storage space beneath)
- ▶ Cutlery compartment and two additional drawers
- ▶ Basket drawer
- ▶ Central locking for kitchenette drawers and pull-out
- ▶ Two wall-mounted cupboards with shelves
- ▶ Two halogen spotlights beneath the kitchenette wall mounted cupboard
- ▶ Rubbish bin
- ▶ 12V / 230V socket
- ▶ Hinged window with net curtains, fly screen and night blind
- ▶ Spice rack with chrome rail and kitchen roll holder

Revive your senses in a refreshing oasis

Comfort is not matter of size. The Arto proves that even with limited space, there is still enough room to relax. Just try it: like recharging your own batteries and refreshing your senses in a bathroom which offers everything you need on your travels.

The Arto bathroom includes the following as standard:

- ▶ Elongated wash basin with single-lever chrome mixer tap
- ▶ Rubbish bin, toilet paper holder and integrated shelf storage facilities
- ▶ Lower cupboard in aluminium design with shelves
- ▶ Panoramic mirror with shelf and chrome rail (left) and wooden cupboards with shelves and chrome handles (right)
- ▶ Shower tray with two drains
- ▶ Height adjustable showerhead with chrome wall-mounted pole and single-lever mixer tap
- ▶ Shower column with dish for soap and shower utensils
- ▶ Shower curtain (can be stored away completely behind the shower column)
- ▶ rota table, fixed installation cassette toilet
- ▶ From outside removable, winterised cassette toilet with automatic venting
- ▶ Towel hook and rail
- ▶ Integrated ceiling spotlights

No need to count sheep...

You can sleep soundly in the Arto lifting double bed, dreaming of exciting travel adventures and resting up in preparation for the next eventful day. And the cosy rear bed of the garage models also offers an extremely comfortable way of relaxing whilst making plans for future discovery tours...

The Arto features the following as standard:

- ▶ Illuminated wardrobe with rail (Arto 69G also includes shelf)
- ▶ Beds with wooden slat base and foam mattress
- ▶ Sliding door for partitioning the rear bed from the living area
- ▶ Rear storage lockers
- ▶ Chrome reading light

Pictures partly with special equipment

Only something really good repeatedly attracts imitators

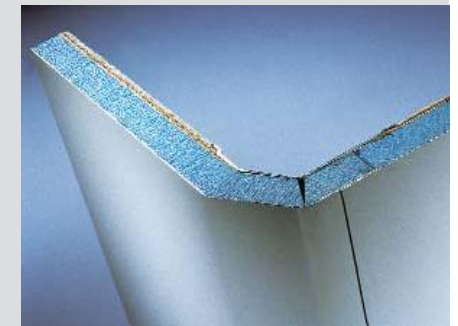

When the Arto made its debut in 1998, it was already head and shoulders above all the other vehicles in its class. And ever since there have been repeated attempts to imitate its technical refinement and intelligent detailed solutions. A beacon of this exemplary synthesis between construction and innovation is the aluminium sandwich construction (with a 30 mm layer of rot-resistant Styrofoam), which in terms of lightweight construction, twist rigidity and insulation properties is quite simply unrivalled – and apart from in the Arto, is not used in any other motor home in its class.

The Arto body shell offers the following features as standard:

- ▶ Roof and side panels in 30 mm aluminium sandwich construction with pressure and rot resistant Styrofoam filling.
- ▶ Panoramic laminated windscreen with green stripe and insulating aluminium blinds, toughened glass side windows with insulating glass
- ▶ Two external mirrors
- ▶ Height adjustable halogen headlights
- ▶ Rear spoiler with integrated brake light
- ▶ Rear fog light and reversing light
- ▶ Aluminium roof rails
- ▶ Exterior applications in Arto design (blue-grey)
- ▶ Skylight:
Arto 59: living area, kitchenette, bathroom
Arto 59G/Arto 69G: living area, rear bed, bathroom
- ▶ Insulated hinged window with fly screen and night blind
- ▶ Garage box for Arto 59G and 69 G in sandwich construction, aluminium outer surface
- ▶ Single-key system for entry door, external storage flaps, toilet disposal and fuel tank locks.
- ▶ Electrically operated double entry step

The ARTO:

Success built on a strong base

The Arto offers a great deal of travel comfort – and therefore needs various tanks which not only need to take up a minimum amount of space but should also be effectively protected from external influences such as moisture, cold or dirt. The intelligent solution developed by the experienced Niesmann+Bischoff-engineers is the strong and heated functional floor where the equipment, supply lines as well as fresh water and waste water tanks are ideally located. In addition, all the important supply line connections are easily accessible at all times via service flaps located in the floor of the interior.

The Arto chassis offers the following features:

- ▶ base vehicle Fiat Ducato 15 TD oder Fiat Ducato 18 TD
- ▶ Power steering
- ▶ ABS (Anti-lock braking system)
- ▶ ASR (Anti-Slip-Regulator), not available for automatic
- ▶ original Fiat frame, garage mounting for Arto 59G and 69G
- ▶ 2.8 l engine 4-cylinder-diesel engine with Common-Rail-Direct Injection und turbo intercooler
- ▶ Power 93 KW / 127 bhp, torque 300 Nm
- ▶ 5-speed gear box
- ▶ Front wheel drive, independent front suspension on driving bolster with triangular wishbones and shock absorbing struts, transverse stabiliser
- ▶ Rigid axle with leaf spring
- ▶ 80 litre fuel tank
- ▶ Electronic immobiliser
- ▶ Heater and fresh air system with 4-speed fan and air re-circulation
- ▶ Speedometer, rev counter, displays for engine temperature, cooling water, fuel level, oil level, brake fluid level, brake pad wear.
- ▶ Clock located in instrument display (FIAT)
- ▶ Dual circuit brake system with power assistance and controller
- ▶ Internally ventilated double piston disc brakes front and rear

Pictures partly with special equipment

- ▶ The insulated and heated functional floor houses the supply installations; a rigid plastic shell fits into the spacing of the chassis in whose recesses the fresh water tank, waste water tank and body shell battery are located.
- ▶ The upper area of the functional floor, between the floor and the chassis frame, houses all the supply lines.
- ▶ The floor has services flaps which enable access to the installations
- ▶ Body shell battery:
12 V / 95 Ah (K20)
- ▶ Power supply 12 V / 16 A
- ▶ Digital display panel: fill levels for fresh water and waste water, battery voltage body and chassis, inside and outside temperature, clock, integration for Duomatic option including reserve bottle display
- ▶ Fuse box with LED lamp for indication of a defective fuse
- ▶ Heating Arto 59: Truma C 3402 with 3.5 kW water heater
- ▶ Heater Arto 69:
Truma C 6002 with 6.0 kW water heater
- ▶ Functional floor and storage areas are heated
- ▶ Storage area lighting
- ▶ Additional generous storage space next to driver and front passenger seats

Space and storage

The attention to detail and the practical and functionally oriented design of the Arto will surprise you time after time. Everything that you need to hand on a journey is stowed away safely and in its own designated place. How relaxing!

** Further persons are allowed if the technically admissible total mass is not exceeded and corresponding seats with safety belt devices have been installed.

1 The term »admissible total weight« used so far has been replaced by »technically admissible total mass« according to EN 1646-2.

2 The term »empty weight« used so far has been replaced by »mass in travelling condition« according to EC Guidelines 92/21 (± 5 %) and EN 1646-2. The mass in travelling condition according to EC 92/21 (± 5 %) and EN 1646-2 additionally includes the driver (75 kg), filling quantities (90%) for fuel, fresh water, and gas, as well as tools, spare wheel, and connecting cables.

3 Depending on the optional equipment. Any weights of optional equipment have to be added to the »mass in travelling condition«.

4 The admissible total carriage capacity must not exceed 5400 kg (chassis 15) or 5500 kg (chassis 18).

The empty weight and the loading capacity are subject to variation due to the installation of optional equipment.

All data are approximate values.

Your ARTO authorised dealer

Some of the vehicle illustrations include special equipment which is available at extra cost and is included in the relevant price list. The illustrated decorations are not part of the Niesmann+Bischoff model specification. Information relating to model specification, appearance, performance, dimensions and weights, as well as vehicle fuel consumption is correct at the time of going to press and applies to purchase and registration in the Federal Republic of Germany. It is subject to change up to the time of sale or vehicle delivery. Your Niesmann+Bischoff authorised dealer will be glad to advise you of any changes as well as standard specifications. Version: August 2003.

Valid from August 2003
