- **Rear ladder**

Comments

The Rimor Racehome has been jointly developed between Southdowns Motorcaravans and Rimor to meet the need for a Motorhome with a large garage and load carrying capability suitable for motor sport enthusiasts.

The vehicle is based on the Mercedes 416 chassis and can be supplied with a large walk in garage for motorcycle/quad bike storage and workshop facilities, or with a large double bed over the garage area. The living area can also be configured to include an L shaped lounge for maximum space utilisation.

The garage has a large door on the offside of the vehicle with a slightly smaller door giving access from the near side. Ramps are supplied together with an option for an electric winch to ease loading.

Further options include external shower for Bike cleaning, Integral Generator, Solar Panels, Awnings and a wide range entertainment systems. The Racehome has the entire home comforts associated with a Rimor vehicle including separate shower and toilet, hot water and blow air heating system and a well equipped kitchen.

The Rimor Racehome is a remarkable development and opens a new chapter in Motorhome design.
